Exploration

When students choose to learn English we can think of many reasons why we consider Twin to be one of the best - such as our many years of experience- which has allowed us to learn and grow with our students. We can tailor our offering to your individual strengths and weaknesses. We want to help you set achievable goals, and aim to give you the support you need to reach them.

Why study abroad?

Is there a better way to learn a language than to surround yourself with it? At Twin, you can learn English not only in an English-speaking country, but you can also learn more about the culture, the people and the traditions. While you may not have the confidence when you arrive to start a conversation, you soon will with the skills you learn in class.

Cultural integration

While you will learn more about either the UK or Ireland, you will also be able to make friends from around the world in the school – and learn about their cultures too. A key aspect of learning at Twin is engaging with classmates and sharing the challenges and rewards of learning together. Our classes are much more than listening to teachers. This means that, whilst formally learning language skills, Twin students are learning vital life skills that help them to be confident global citizens of the future.

Twin Social Programme

To help you make the best of your stay, our social programme gives you the opportunity to explore the sights, and discover different cultures. With lots to do after class and at the weekends you have the perfect opportunity to improve your conversational skills.

Unique places to learn

Twin offers 3 different schools, each with its own very distinctive character and location, or you can go virtual:

- **A striking modern centre** in Greenwich, London (which itself is a top 10 UK visitor site), shared with a very large leisure and fitness centre available to Twin students.
- **An elegant Georgian building** in the heart of friendly Dublin, with its characterful social life, beautiful surrounding countryside and Ireland's welcoming visa policies and special "academic year" value-programmes.
- **A converted historic mansion**, owned by aristocracy today, visited by royalty in the past, situated in its own beautiful grounds and just minutes away from the sea at the UK's sunniest town, yet easily reachable to both London and Brighton.

Go Virtual - Twin Online

Twin offers both in-class and online learning experiences – our online offer gives a "virtual classroom" experience to give the best possible engagement with your teacher and your international mix of classmates. We believe attending at one of Twin's centres and living in-country remain the best way to learn. But, students looking to stretch their budget may consider either online or a combination of online and in-school learning, saving on accommodation and living expenses while getting a taste of the Twin experience.

Achieve your goals

We treat every student as an individual – that means we help you can make the best possible progress, because the learning journey is focused on your specific needs.

Here's how:

- Weekly progress tests to discuss your progress and your needs
- Homework options for you as an individual – different students have different areas to improve – available from our Twin e-Learning platform – large online library of study materials for you to use any time, anywhere – including 3 month after your course finishes
- All study materials available online – better than a book to carry around
- Regular class progress review to help your class to review progress and topics for next week
- An individual weekly study programme helps you stay on track to achieve your goals

We understand

Every student has a reason for wanting to improve their English language skills. Whether it is to improve career prospects, travel, or just speak to people from other backgrounds and connect with different cultures, our courses can help you achieve it.

Twin e-learning

Improving your English with Twin.

Our courses are designed to prepare students for real-life and provide students with the opportunity to improve their overall language skills. Our General English course is our most popular course and is now also being offered online. But, students who wish to add specialist courses like IELTS Preparation, Communication Skills or English for Work may do so by enrolling for Intensive English – or taking these courses part-time. And, for those who want more individual attention, we also provide one-to-one lessons.

All of our classes have a strong focus on communication to help you speak English confidently and clearly. We also encourage you to use English outside the classroom as much as possible, creating the opportunity to practise and improve your speaking and listening. But don't just take our word for it – our English courses are accredited by the British Council in the UK and EAQUALS and ACELS in Ireland.

Achievements

Throughout the course, our teacher monitor progress with tests and personalised assessments, so we can offer extra support in any areas you are struggling with. At the end of your course, you will receive a Twin Certificate of Achievement and progress report, which states your current level.

Twin e-Learning

While studying with us, you will have access to Twin e-Learning, our online learning platform. Using e-Learning allows you to study in your free time and helps support what you have learned in class. You will also have access to progress reports so you can easily keep track of your English level. You will also have access to e-Learning for three months after completing your course, so you will be able to refresh your knowledge once you return home.

Study & explore

Some students only want to focus on English tuition, while others want to learn and explore. Our timetable provides a balance between learning and leisure time, or additional tuition to help you reach a specific goal. Find out more about General English (p26) courses or English Unlimited (p30) to find the right course for you.

Staying on track

Our courses are specifically designed with our students' needs in mind. We know you have certain expectations when it comes to learning, so our teachers aim to keep you on track. On average, our students progress one CEFR level every 12 weeks. Our teachers will help you to reach these goals with personal assessments and will provide additional assistance where needed. We pride ourselves in offering a truly international experience and have a range of students from different countries. Making friends and speaking with other students is important and helps your conversational skills, and so improves your language skills even more.
